

m\_system::system\_utime

```
graph LR; A[m_system::system_utime] --> B[m_system::str2_carr]; A --> C[m_system::timestamp];
```

The diagram illustrates a directed relationship from a source node to two target nodes. The source node, labeled 'm\_system::system\_utime', is a gray rectangle on the left. Two blue arrows originate from its right side, pointing to two white rectangular nodes on the right. The top node is labeled 'm\_system::str2\_carr' and the bottom node is labeled 'm\_system::timestamp'.

m\_system::str2\_carr

m\_system::timestamp
